The life span of this product is totally dependant on the weather conditions at the location that it is installed and the method of installation. Windy conditions may cause the product to fail prematurely through tearing and shredding. The use of suitable fixings e.g. using penny washer type washers or wooden battens will help prevent tearing and damage at the fixing points. Notwithstanding the UV stabilisation protection; no guaranteed lifespan written or implied whatsoever can be given as to the life of the product as this is dependent on the particular installation and is therefore out of our control.

The product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with any legal regulations.

This is to confirm that the above product 'Heavy Duty Newt Barrier' is produced to the above specification and is manufactured in Great Britain.
